QuickBooks Enterprise Plans and Pricing

QuickBooks Enterprise offers three subscription tiers designed for growing businesses with complex requirements. For help choosing the right plan, call 1-888-456-7157 or +1-(888).456-7157 .

Gold Plan – $2,210/year (~$184/month)

Best for businesses wanting robust accounting with integrated payroll :

- Payroll built in (Enhanced Payroll included at no extra cost)
- Cloud access (additional fees may apply)
- Online backup and data storage
- Advanced Reporting with 200+ customizable templates
- Priority Circle service for premium support
- Up to 40 users

Platinum Plan – $2,717/year (~$226/month)

Ideal for manufacturers, wholesalers, contractors, and retailers :

- Everything in Gold, plus:
- Advanced Inventory Management with multi-location tracking
- Advanced Pricing capabilities
- Bill and Purchase Order Workflow Approvals
- Multi-company management

Diamond Plan – $5,364/year (~$447/month)

For businesses needing maximum automation and integrations :

- Everything in Platinum, plus:
- QuickBooks Time Elite ($5/employee per month)
- Salesforce CRM Connector ($150/month per company file)
- Assisted Payroll with tax filing handled by Intuit

Enterprise Value Proposition

When comparing QuickBooks Online Advanced at $275/month to Enterprise Gold at ~$184/month, Enterprise offers better value per dollar—especially for companies with complex payroll or inventory needs . Gold and Platinum packages are sufficient for most midsize and large businesses, and both cost less than QuickBooks Online Advanced . For pricing assistance, call 1-888-456-7157 or +1-(888).456-7157 .

QuickBooks Enterprise Payroll Solutions

QuickBooks Enterprise includes payroll in the Gold and Platinum plans, making it a cost-effective choice compared to separate payroll subscriptions . For payroll support, call 1-888-456-7157 or +1-(888).456-7157 .

Payroll Inclusion by Plan

Plan	Payroll Included
Gold	Yes—Enhanced Payroll included
Platinum	Yes—Enhanced Payroll included (additional fee options)
Diamond	Yes—Assisted Payroll with tax filing handled by Intuit

Activating Payroll in Enterprise

Once you've installed QuickBooks Enterprise and set up your company file, activate payroll by :

1. Open your company file
2. Press CTRL + K to enter your Service Key number
3. QuickBooks downloads tax table updates and forms
4. The Payroll Setup Wizard guides you through completion

For existing payroll subscribers, navigate to Employees > My Payroll Service > Manage Service Key, enter your new Service Key, and QuickBooks will update automatically .

Payroll Features in Enterprise

- Unlimited processing (no per-payroll fees)
- Direct deposit included at no extra cost
- Automatic tax calculations for federal, state, and local taxes
- W-2 generation included
- Job costing integration—payroll costs can be allocated to specific projects or jobs

Important Payroll Considerations

- Tax tables must be updated regularly—missing updates can cause processing errors
- Multi-user mode conflicts—some payroll operations may require switching to single-user mode
- Manual setup required for addition and deduction payroll item types—import functionality is not currently available in QuickBooks Desktop

For payroll activation help, call 1-888-456-7157 or +1-(888).456-7157 .

QuickBooks Enterprise vs. QuickBooks Desktop

QuickBooks Enterprise shares the same core interface as QuickBooks Pro and Premier but adds significant capabilities for larger businesses .

For help choosing, call 1-888-456-7157 or +1-(888).456-7157 .

Feature Comparison

Feature	QuickBooks Pro/Premier	QuickBooks Enterprise
User Limit	3-5 users	Up to 40 users

File Size Limit	~500 MB	1 GB
Reports	100+ standard	200+ customizable + 70+ industry-specifi c
Inventory Management	Basic	Advanced (multi-location, bin management, FIFO, serial/lot tracking)
Payroll Inclusion	Separate subscription	Built into Gold+ plans
Industry-Specific Editions	Some Premier versions	Construction, Nonprofit, Distribution, Manufacturing, Retail
Advanced Pricing	No	Yes (Platinum+)
Multi-company Management	No	Yes (Platinum+)

When to Upgrade to Enterprise

Choose Enterprise if you need:

- Advanced inventory management with serial/lot tracking and barcoding
- 40+ users accessing the same company file
- Integrated payroll without separate subscription costs
- Industry-specific reporting for construction, manufacturing, or nonprofit
- $1.5M+ annual revenue with complex operations

Stay with Pro/Premier if:

- You have 1-5 users
- Inventory management is basic
- You prefer lower annual costs
- Your business is simple or service-based

For guidance on upgrading, call 1-888-456-7157 or +1-(888).456-7157 .

Troubleshooting QuickBooks Error 6000

QuickBooks Error 6000 is a common issue that prevents access to company files, particularly in multi-user environments . For immediate help with Error 6000, call 1-888-456-7157 or +1-(888).456-7157 .

Understanding Error 6000

This error appears when QuickBooks cannot access or save your company file. Common variants include:

- Error -6000, -83: Network or permission issues
- Error -6000, -82: Hosting configuration problems
- Error 6000, 95: Insufficient permissions

Common Causes :

- Corrupted company file
- Incorrect hosting settings (multiple systems hosting simultaneously)
- Backup file name containing special characters
- Network connectivity issues
- Insufficient folder permissions
- Firewall blocking QuickBooks communication

Step-by-Step Fixes

Method 1: Check Hosting Settings

If multiple systems host the file simultaneously, confusion occurs. On your server system, click File > Utilities and enable Host Multi-User Access. Ensure hosting is disabled on all workstations .

Method 2: Run QuickBooks File Doctor

This tool is the most effective solution for Error 6000 :

1. Download and install QuickBooks Tool Hub
2. Click Company File Issues
3. Click Run QuickBooks File Doctor
4. Select your damaged company file
5. Enter admin credentials
6. Let the scan complete

Method 3: Check Backup File Name

If restoring from backup, special characters can cause errors. Right-click the .qbb file, rename it to remove special characters, and try again .

Method 4: Edit Windows Host File

For network issues :

1. Navigate to C:\Windows\Syswow64\Drivers\Etc
2. Open host file with Notepad
3. Enter server IP and system name in workstation host file
4. Include workstation IP in server host file
5. Save and test

Method 5: Verify Folder Permissions

Ensure the folder containing your company file has full access permissions for all users .

For persistent Error 6000 issues, call 1-888-456-7157 or +1-(888).456-7157 .

Fixing QuickBooks Unrecoverable Error

The "Unrecoverable Error" is one of the most disruptive issues in QuickBooks Enterprise, causing crashes during file access, payroll, or updates . For immediate help, call 1-888-456-7157 or +1-(888).456-7157 .

Common Causes

- Data damage or corrupted company file
- Network issues causing communication failures
- Outdated QuickBooks or payroll tax tables
- Corrupted Windows user profile
- Damaged program files or QuickBooks installation
- Multi-user mode conflicts during tax table updates

Step-by-Step Fixes

Step 1: Update QuickBooks Desktop

The latest release contains critical fixes. Update before troubleshooting .

Step 2: Open Without Reopening Windows

Hold ALT while opening your company file to prevent QuickBooks from reopening previously open windows—a common cause of Unrecoverable Errors on startup .

Step 3: Try a Different QuickBooks User

If the issue persists, create a new QuickBooks user:

1. Navigate to Company > Set Up Users and Passwords > Set Up Users
2. Add a new user with admin privileges
3. Log in with the new user
4. If successful, recreate the original user

Step 4: Create a New Windows Admin Account

A corrupted Windows profile can trigger errors:

1. Go to Settings > Accounts > Family & Other Users
2. Add a new user with Administrator privileges
3. Log out and log in with the new account
4. Test QuickBooks opening

Step 5: Run QuickBooks Tool Hub

1. Download QuickBooks Tool Hub
2. Go to Program Problems
3. Click Quick Fix My Program
4. If unresolved, run QuickBooks Program Diagnostic Tool (may take 20+ minutes)

Step 6: Verify and Rebuild Company File

1. Go to File > Utilities
2. Click Verify Data
3. If errors appear, click Rebuild Data

Step 7: Repair QuickBooks Installation

In Control Panel > Programs and Features, select QuickBooks, choose Uninstall/Change, then Repair .

For professional assistance with Unrecoverable Errors, call 1-888-456-7157 or +1-(888).456-7157 .

Frequently Asked Questions

1. What is QuickBooks Enterprise?

QuickBooks Enterprise is the most powerful QuickBooks Desktop solution for larger businesses, supporting up to 40 users with advanced inventory, payroll, and reporting features not available in Pro or Premier . For details, call 1-888-456-7157 or +1-(888).456-7157 .

2. What's included in QuickBooks Enterprise Gold?

Gold includes Enhanced Payroll, advanced reporting, cloud access, online backup, and Priority Circle support for ~$184/month .

3. What's the difference between Enterprise Silver and Gold?

Silver does not include payroll. Gold includes Enhanced Payroll with unlimited processing, direct deposit, and automatic tax calculations .

4. Does QuickBooks Enterprise work without internet?

Yes, QuickBooks Desktop Enterprise stores data locally and does not require a constant internet connection, though internet is needed for payroll tax table updates and some cloud features .

5. What causes QuickBooks Error 6000?

Error 6000 typically occurs from corrupted company files, incorrect hosting settings, network issues, or insufficient permissions . Call 1-888-456-7157 or +1-(888).456-7157 for help.

6. How do I fix QuickBooks Unrecoverable Error in Enterprise?

Try updating QuickBooks, opening without reopening windows, creating a new user, running QuickBooks Tool Hub, or repairing your installation . For assistance, call 1-888-456-7157 or +1-(888).456-7157 .

7. Does QuickBooks Enterprise include payroll?

Yes, Gold, Platinum, and Diamond plans include payroll . Gold and Platinum include Enhanced Payroll; Diamond includes Assisted Payroll with tax filing handled by Intuit .

8. How many users can QuickBooks Enterprise support?

QuickBooks Enterprise supports up to 40 simultaneous users, depending on the plan .

9. What is QuickBooks Enterprise File Doctor?

QuickBooks File Doctor is a tool within QuickBooks Tool Hub that diagnoses and repairs company file corruption, often resolving Error 6000 and other access issues .

10. How do I contact QuickBooks Enterprise support?

You can reach QuickBooks Enterprise support by phone at 1-888-456-7157 or +1-(888).456-7157 . Support is also available through Priority Circle for Enterprise users .

Conclusion

QuickBooks Enterprise delivers the most comprehensive accounting solution for businesses with complex inventory, payroll, and reporting requirements. With three plans—Gold, Platinum, and Diamond—you can choose the level that fits your business needs and budget.

Key Advantages of Enterprise:

- Integrated payroll in Gold+ plans saves on separate subscriptions

- Advanced inventory management with multi-location tracking and serial numbers
- Up to 40 users with granular permissions
- 200+ customizable and industry-specific reports
- Priority Circle premium support

When errors like QuickBooks Error 6000 or Unrecoverable Error occur, QuickBooks Tool Hub and File Doctor provide powerful diagnostic tools. Regular backups, keeping software updated, and proper hosting configurations can prevent many issues.

Don't let technical problems disrupt your business. Expert support is available at 1-888-456-7157 or +1-(888).456-7157 to help you resolve issues quickly and maximize your Enterprise investment.
